Customer Success Associate at an AI sales-enablement SaaS, managing **8 enterprise accounts worth INR 5 Cr+ annually** across leading Indian banks, insurance and healthcare companies. Engineer by background with hands-on experience building LLM and RAG products, so I can speak the client's language and the product team's, and use AI to automate the work in between.

Experience

Associate, Customer Success, *SharpSell.ai* July 2026 to Present
Bengaluru

- Manage a portfolio of **8 enterprise accounts worth INR 5 Cr+ (USD 550K+) in annual value**, including major Indian banks, insurance and healthcare companies.
- **Single point of contact** for client stakeholders across the full lifecycle: onboarding, data uploads, adoption, day-to-day support and escalations, handling a wide range of client scenarios.
- Gathered and scoped **client technical requirements** and drove them to closure with product and engineering teams, keeping live deployments on track.
- **Pitched and delivered a live product demo at a product launch event to an audience of 150+**.
- Working on **AI automation tools** within the company to reduce manual testing and evaluation effort on AI product features.

Software Development Engineer Intern, *Spectents* February 2026 to April 2026
Remote

- Built and shipped an **AI chatbot (RAG)** that lets enterprise users ask questions about internal documents in plain language, including typos and Hindi typed in English script.
- **Cut LLM cost** by answering most queries through search alone and calling the LLM (Amazon Bedrock, Claude Haiku) only for complex requests.

Operations Intern, *TravClan* January 2026 to March 2026
India

- **Owned an entire international destination end to end** at a B2B travel-tech platform, handling all its bookings and the full operations process.
- Managed the destination's **financials and profitability**, with direct responsibility for its revenue and profit.

Data Analyst Intern, *Computer Solution, Ranchi* January 2025 to June 2025
Remote

- Delivered **8+ interactive dashboards** on live business data, giving the team faster reporting and decision-making.
- Analysed **10,000+ records** to identify trends and improve campaign performance; recommendations were acted on by the team.

AI Projects

PortfolioGPT — AI Assistant That Answers Recruiter Questions GitHub
Python, FastAPI, PostgreSQL, FAISS, AWS Bedrock, Docker

- Conversational assistant that answers questions about my profile with accurate, sourced answers; uses search first and the LLM only when needed to keep cost low.

Insight Analyst — Ask-Your-Data AI Agent GitHub
Python, FastAPI, Streamlit, Pandas, Plotly, OpenAI API

- Lets non-technical users upload a dataset (10,000+ rows) and ask questions in plain English to get insights and interactive dashboards, with no SQL or Excel needed.
